

FIRE & EXTINGUISHANT CONTROL EXTINGUISHANT REPEATER PANELS

PRODUCT CODE
TEC04701-RA TEC04701-RAW
TEC04701-RP TEC04701-RPW

FEATURES

- Repeats all alarm indications
- Active function buttons (Passive repeaters are a display-only version)
- Identical to the Master Panel in appearance and size
- RS485 Communications
- Powered by the Master Panel

DESCRIPTION

A Repeater Panel is wired (RS485) directly to a Master Panel, and is similar in size and appearance to the Master Panel.

The Repeater will mimic all Master Panel alarm indications.

ACTIVE REPEATER PANEL

Required when the repeater panel also needs to provide a manual release and a key switch to change from “Auto” to “Manual” discharge mode. This would be applicable when there are multiple entry/exit points of a protected area.

PASSIVE REPEATER PANEL

To be used when only LED indications need to be repeated. This would be applicable when there is a control room or similar site not located at an entry/exit point of the protected area.
