To whom it may concern

I am writing with regards to Apollo Fire Detectors Ltd's future plans for the current range of detectors.

As a market leading manufacturer of Fire Detectors, Apollo is continuously working on the development of new detection technology, however there are no plans to discontinue or make obsolete the XP95 or Series 65 range of detectors.

These ranges continue to form a central role in our product strategy for the foreseeable future.

Yours sincerely

Charles Smith
Head of Product Management
